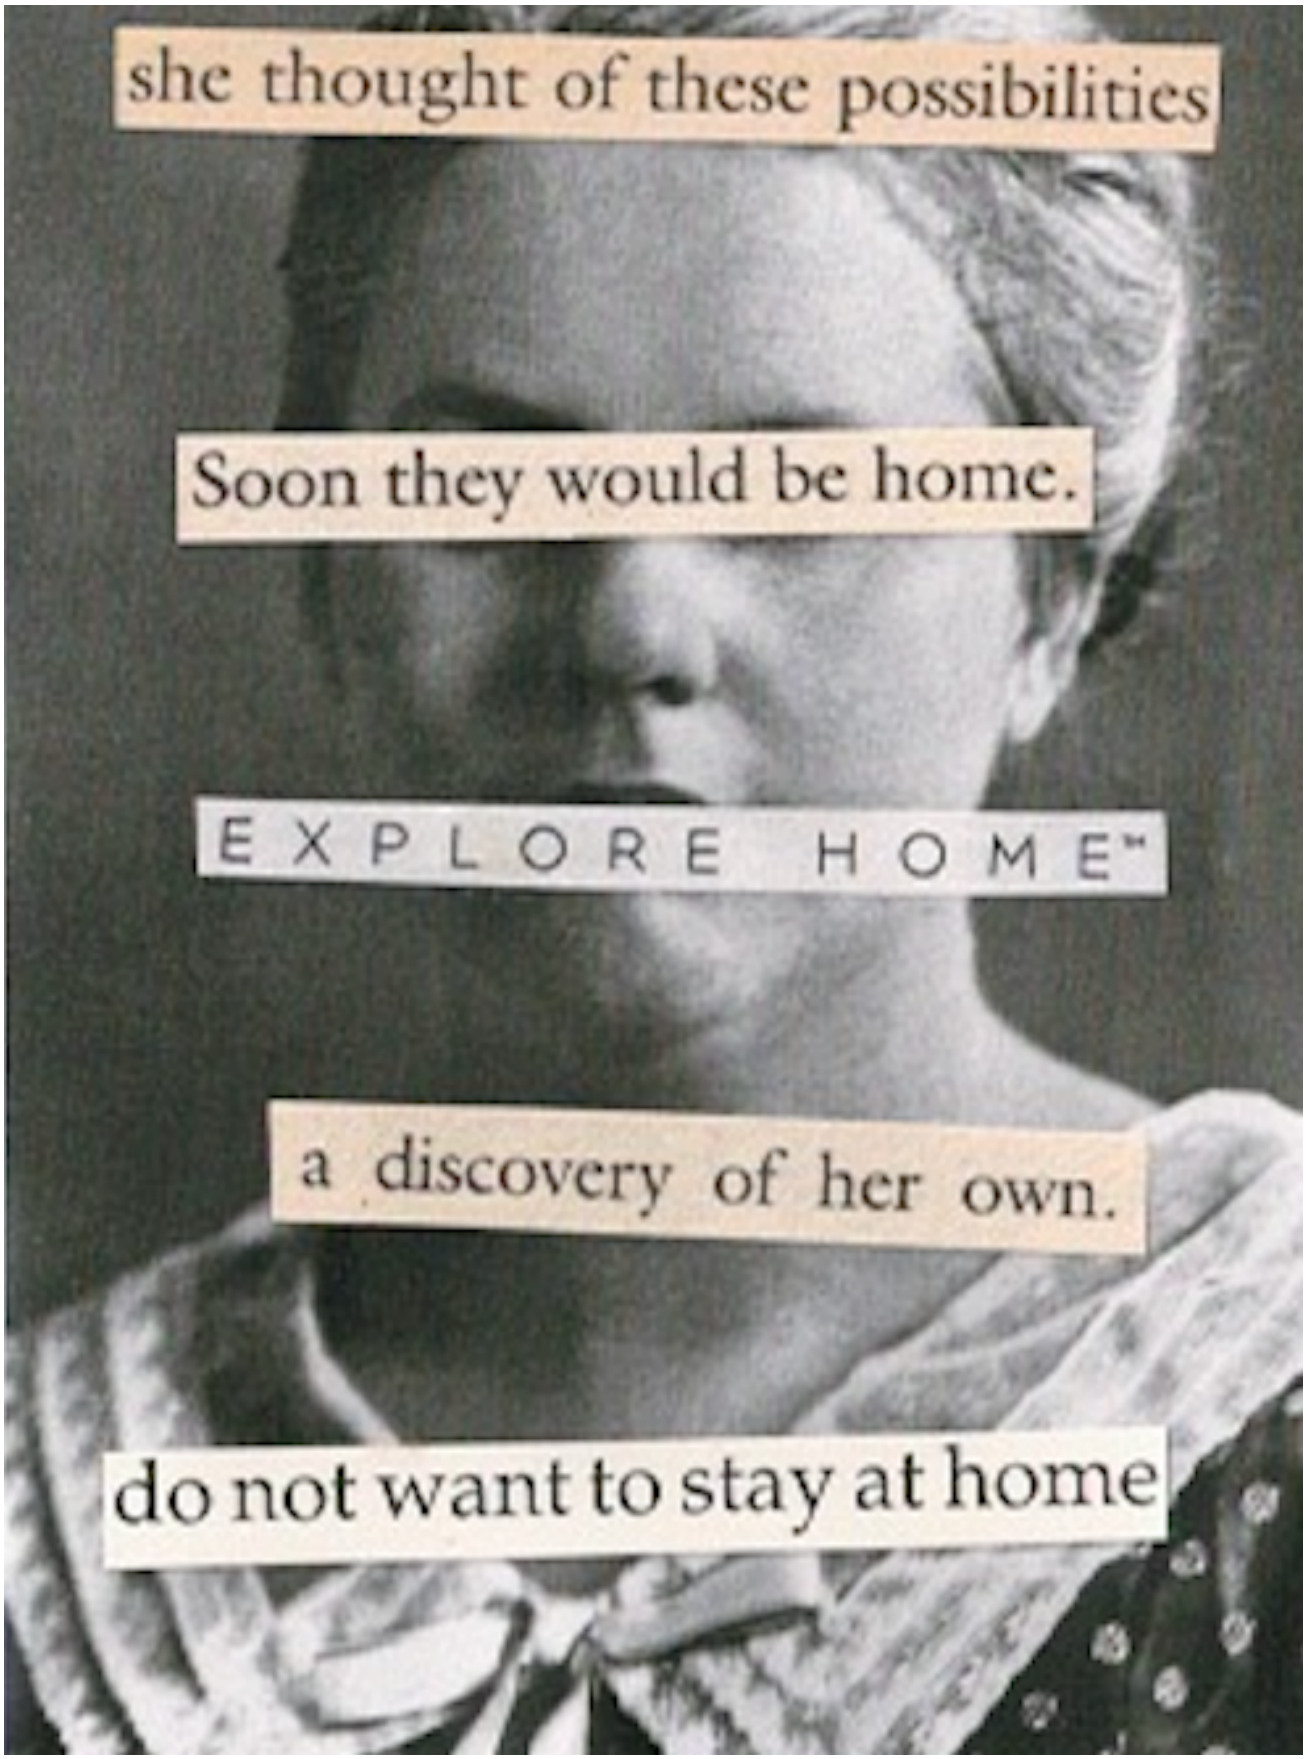
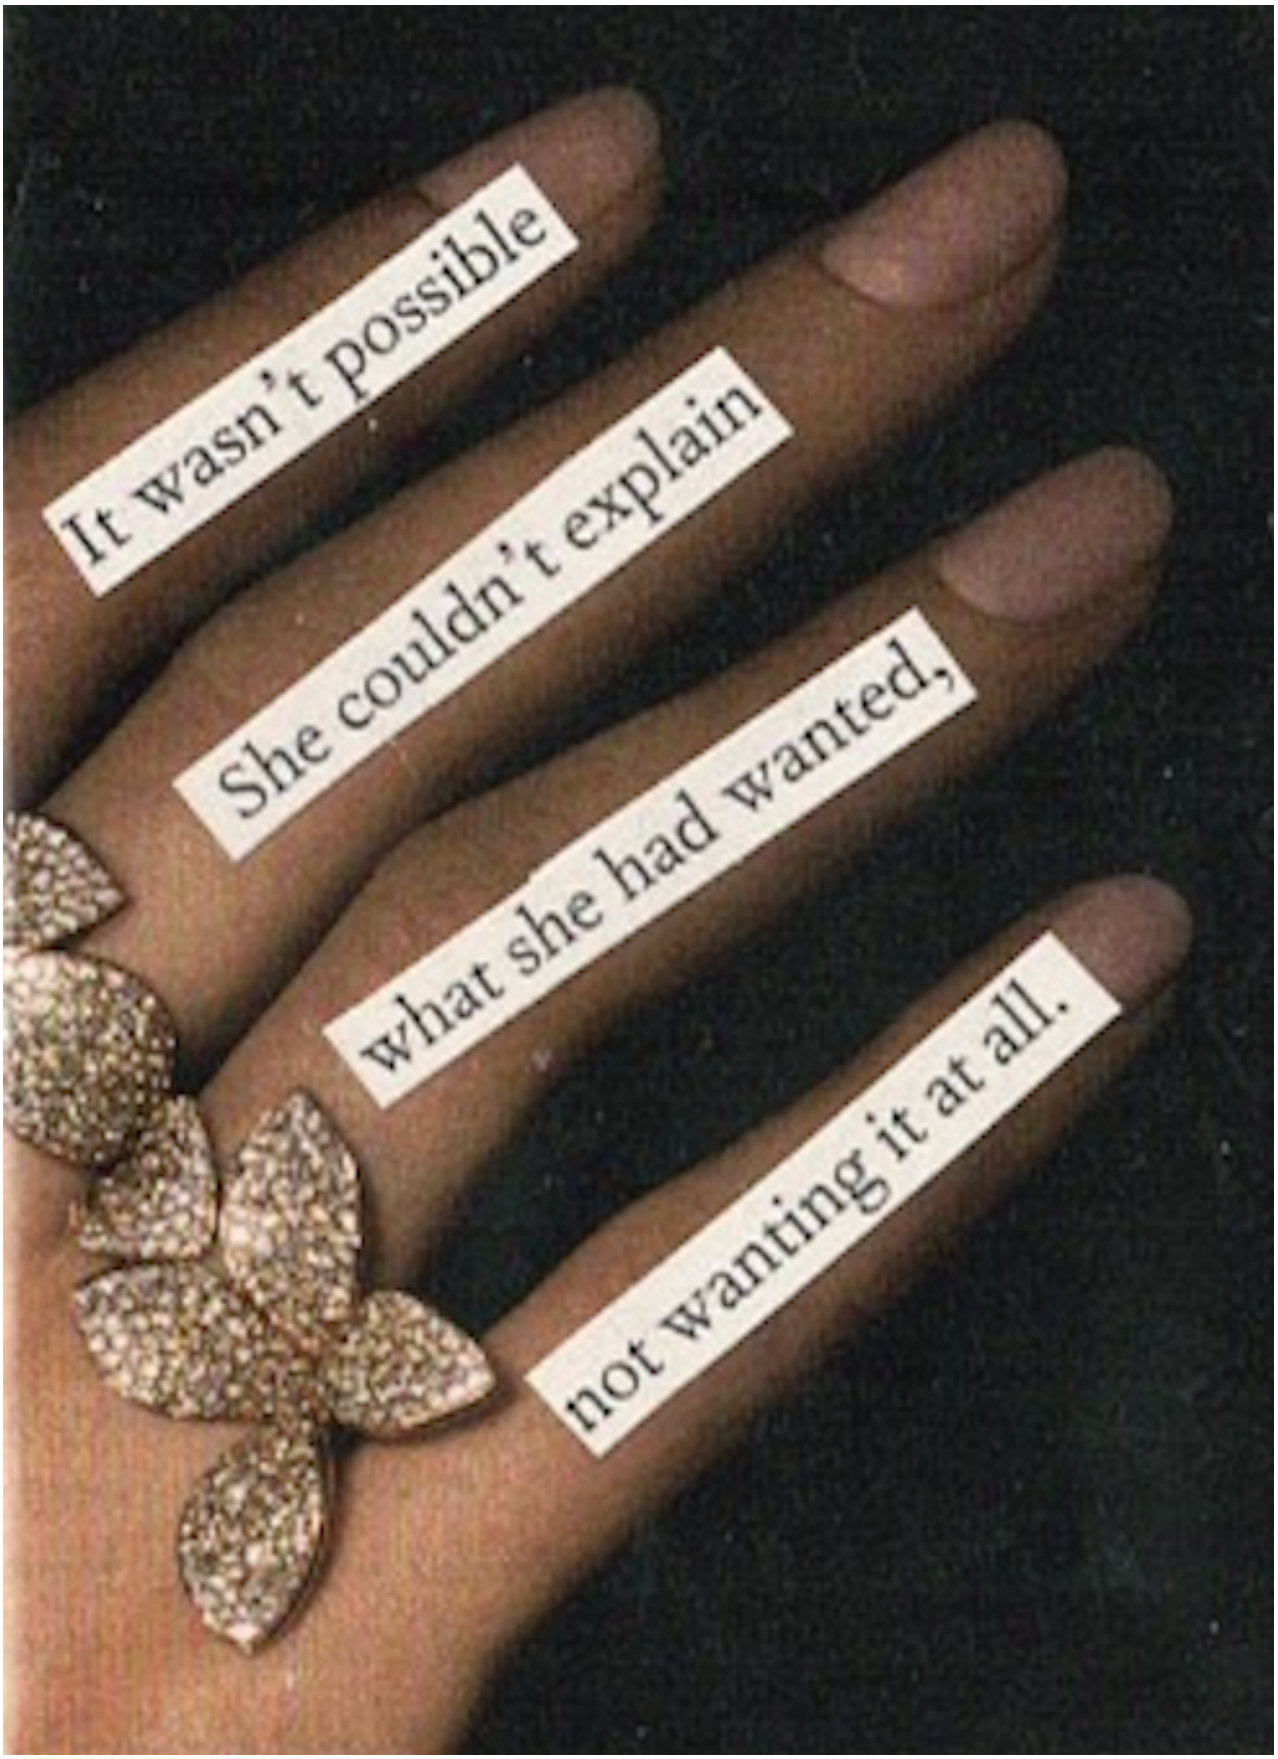
ONE WILD POSSIBILITY

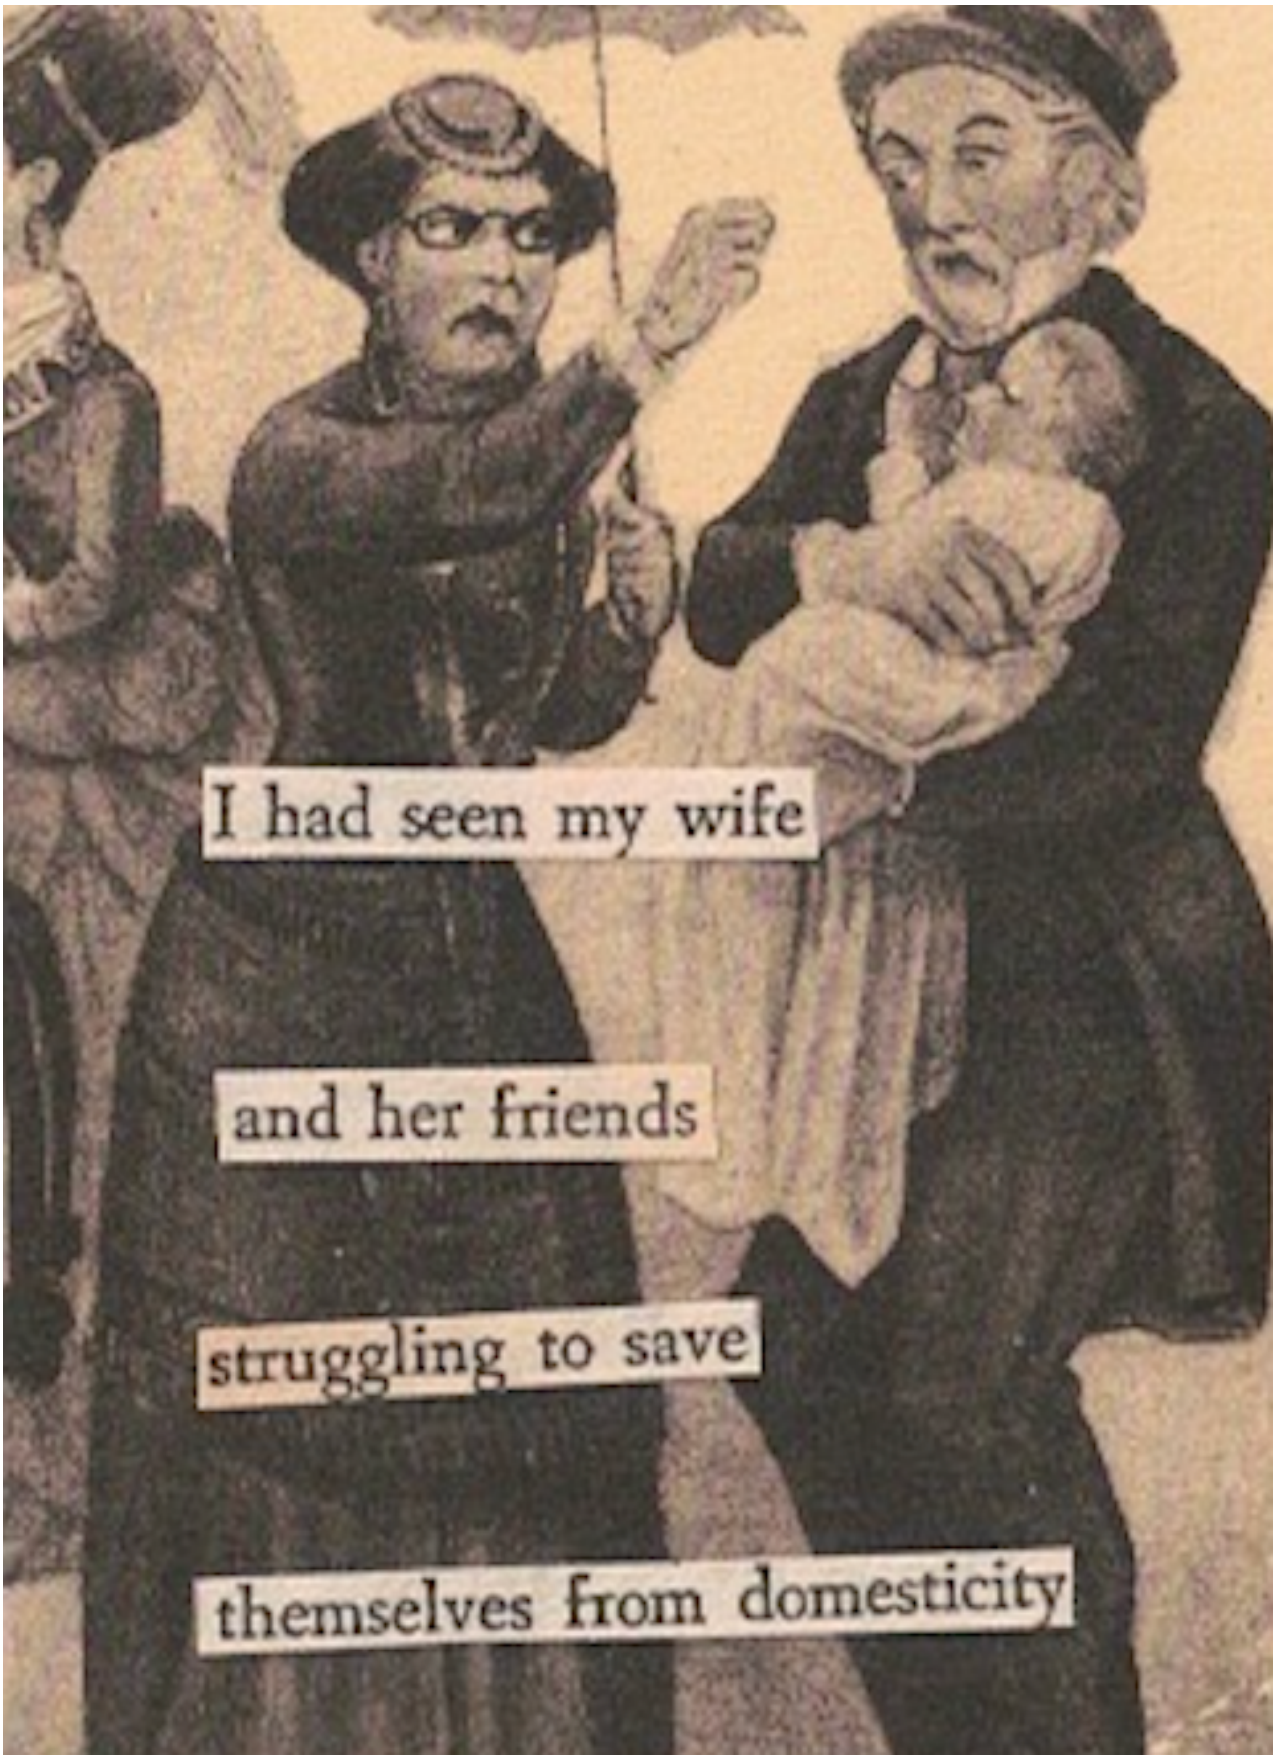
Don't you see we must
either follow one wild
possibility or else go home to bed?



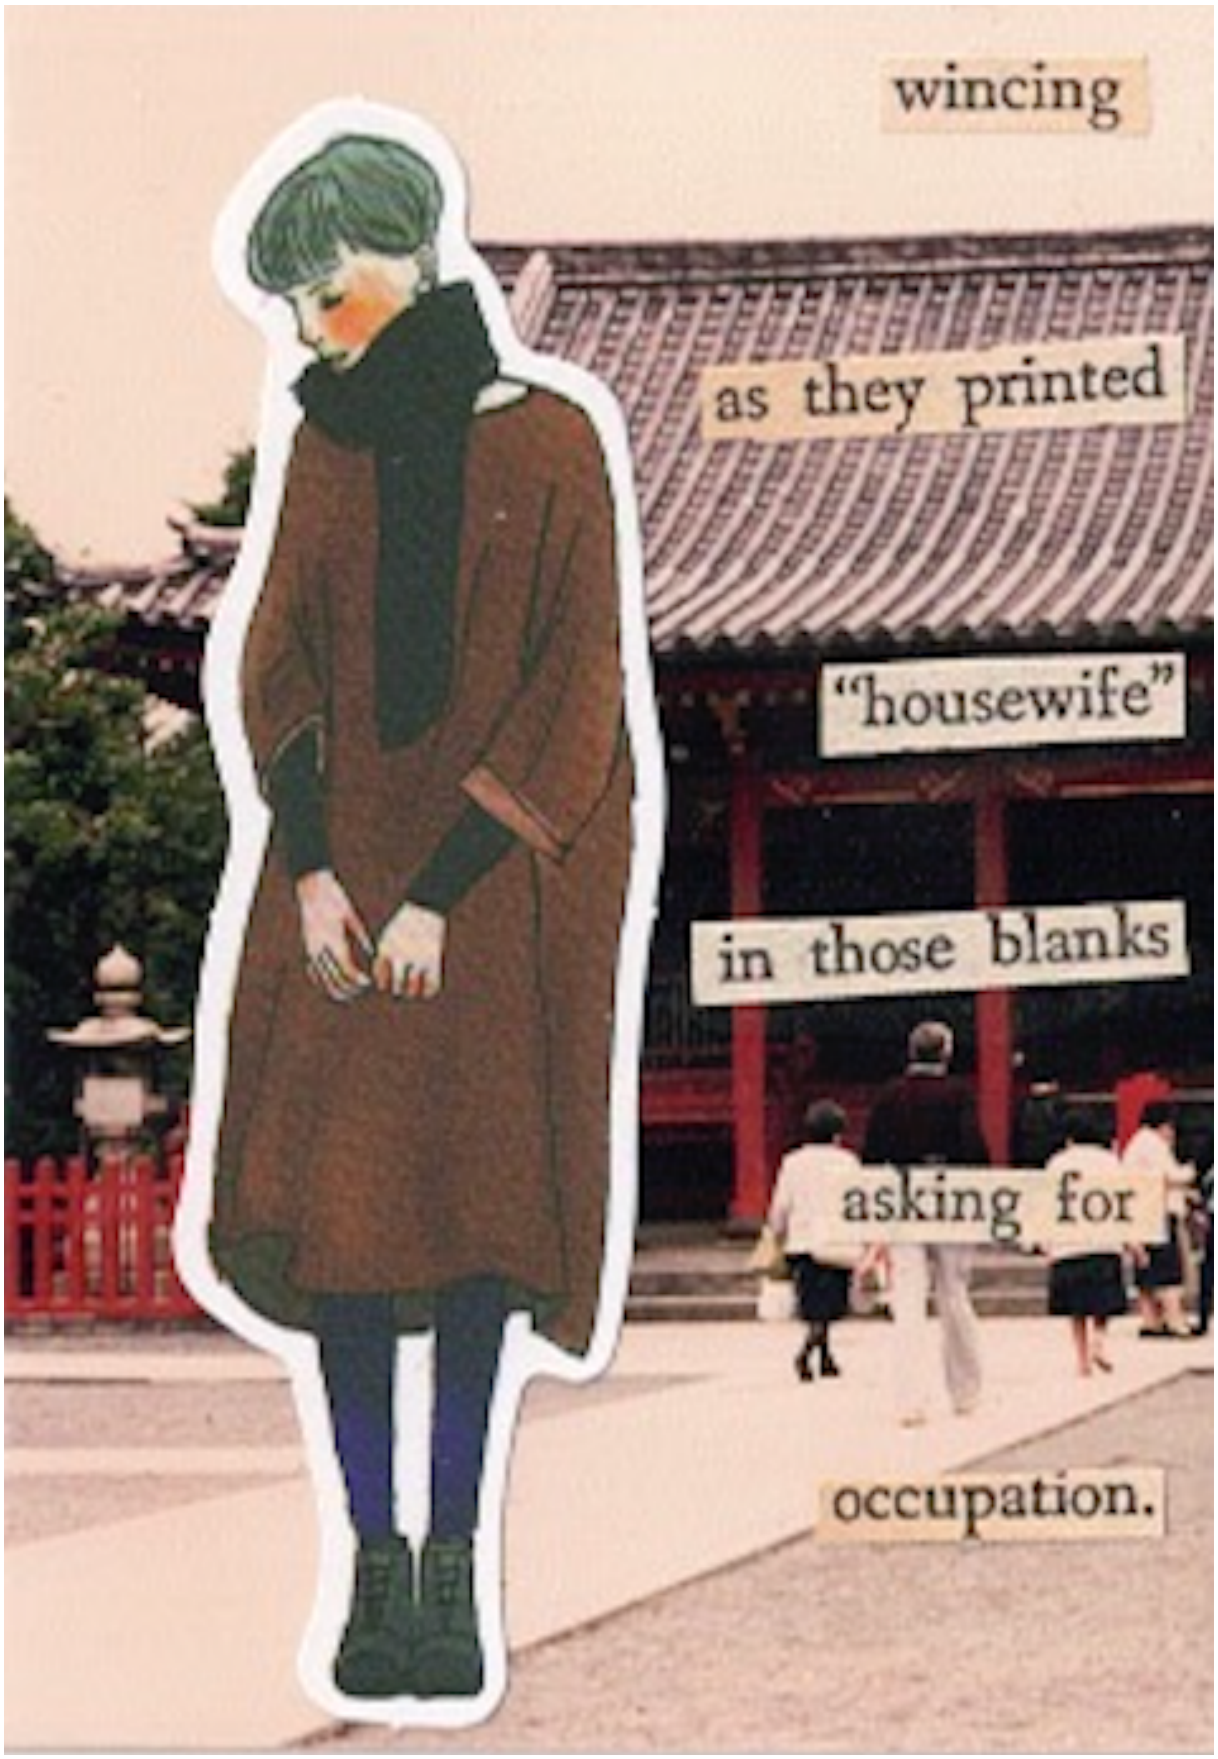
she thought of these possibilities
Soon they would be home.
EXPLORE HOME™
a discovery of her own.
do not want to stay at home



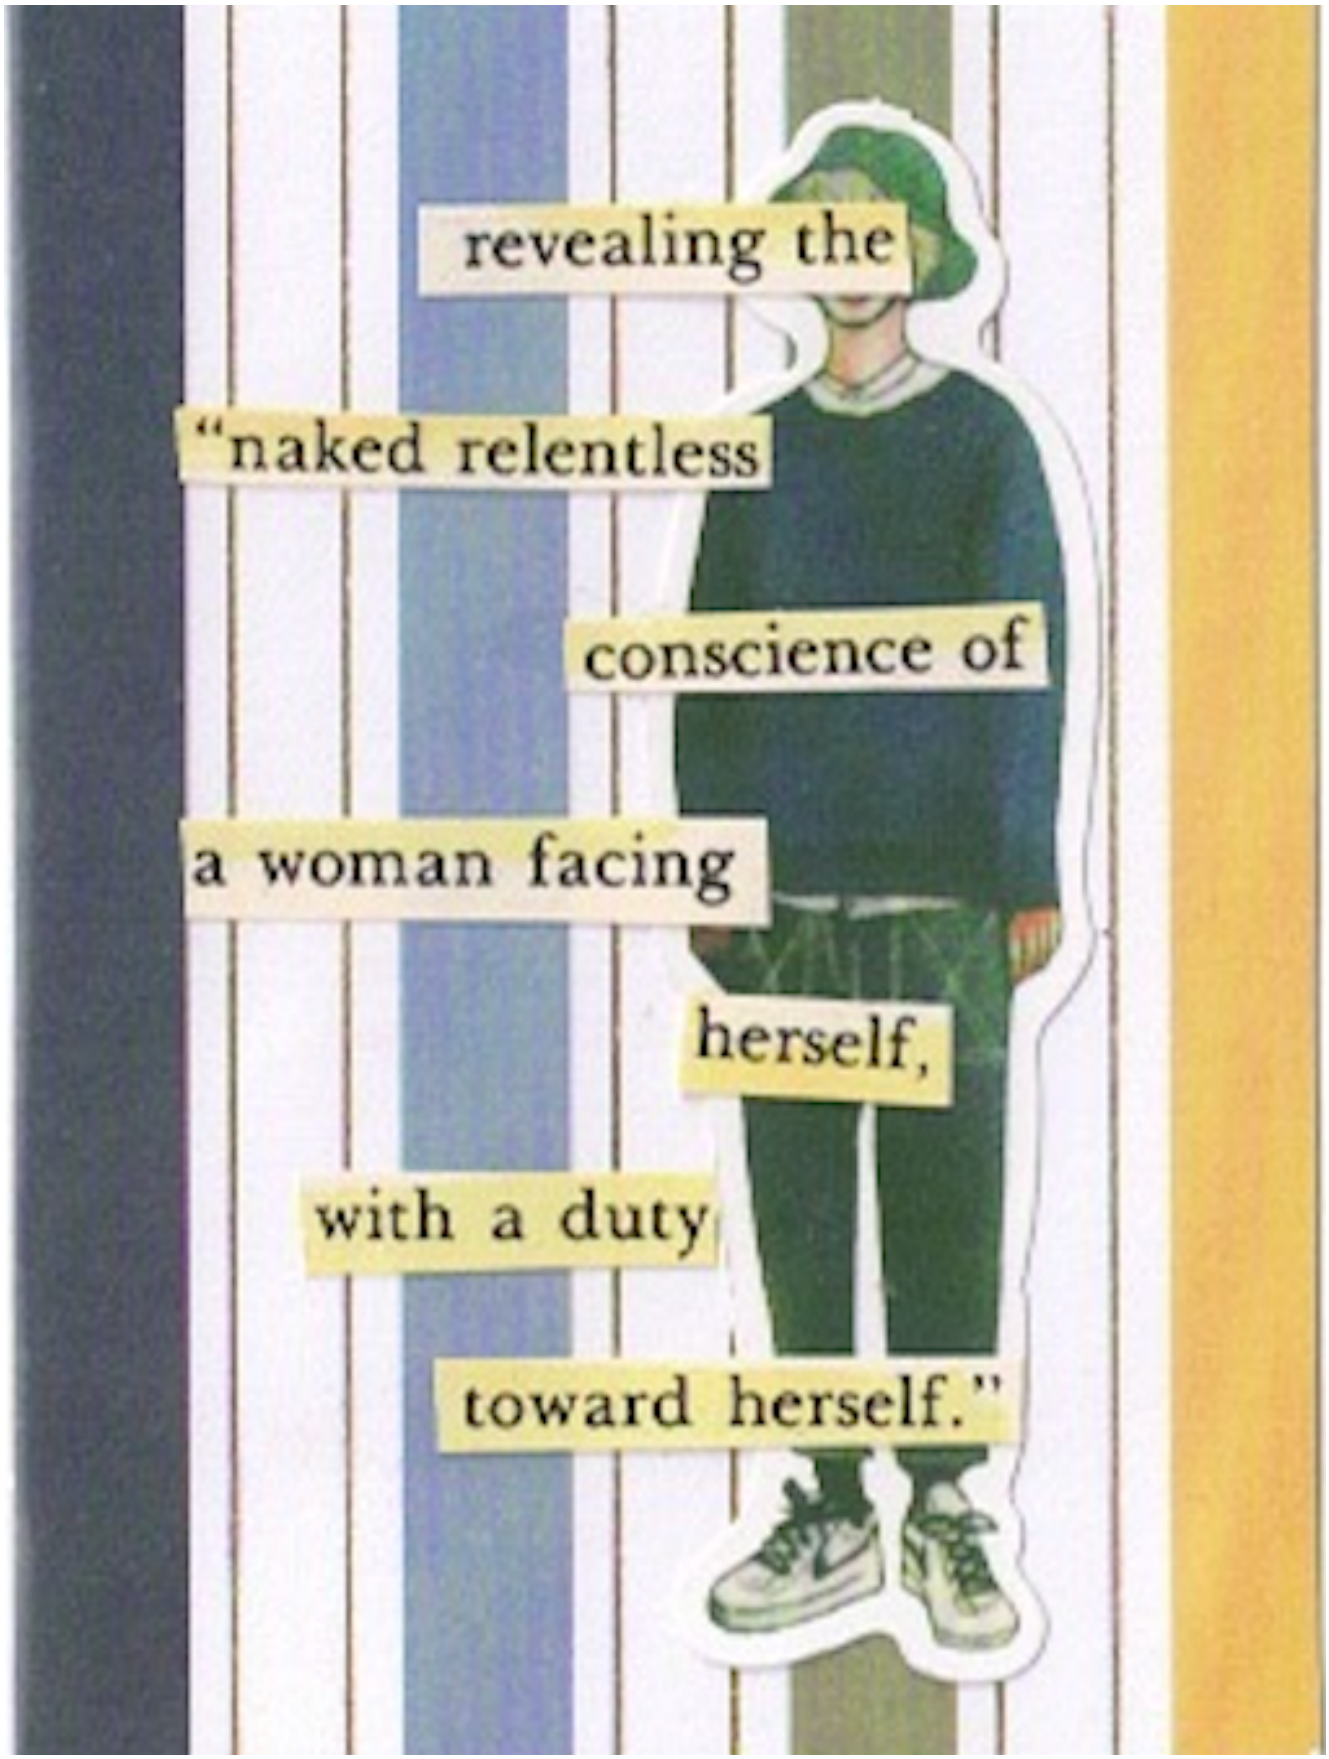
It wasn't possible
She couldn't explain
what she had wanted,
not wanting it at all.



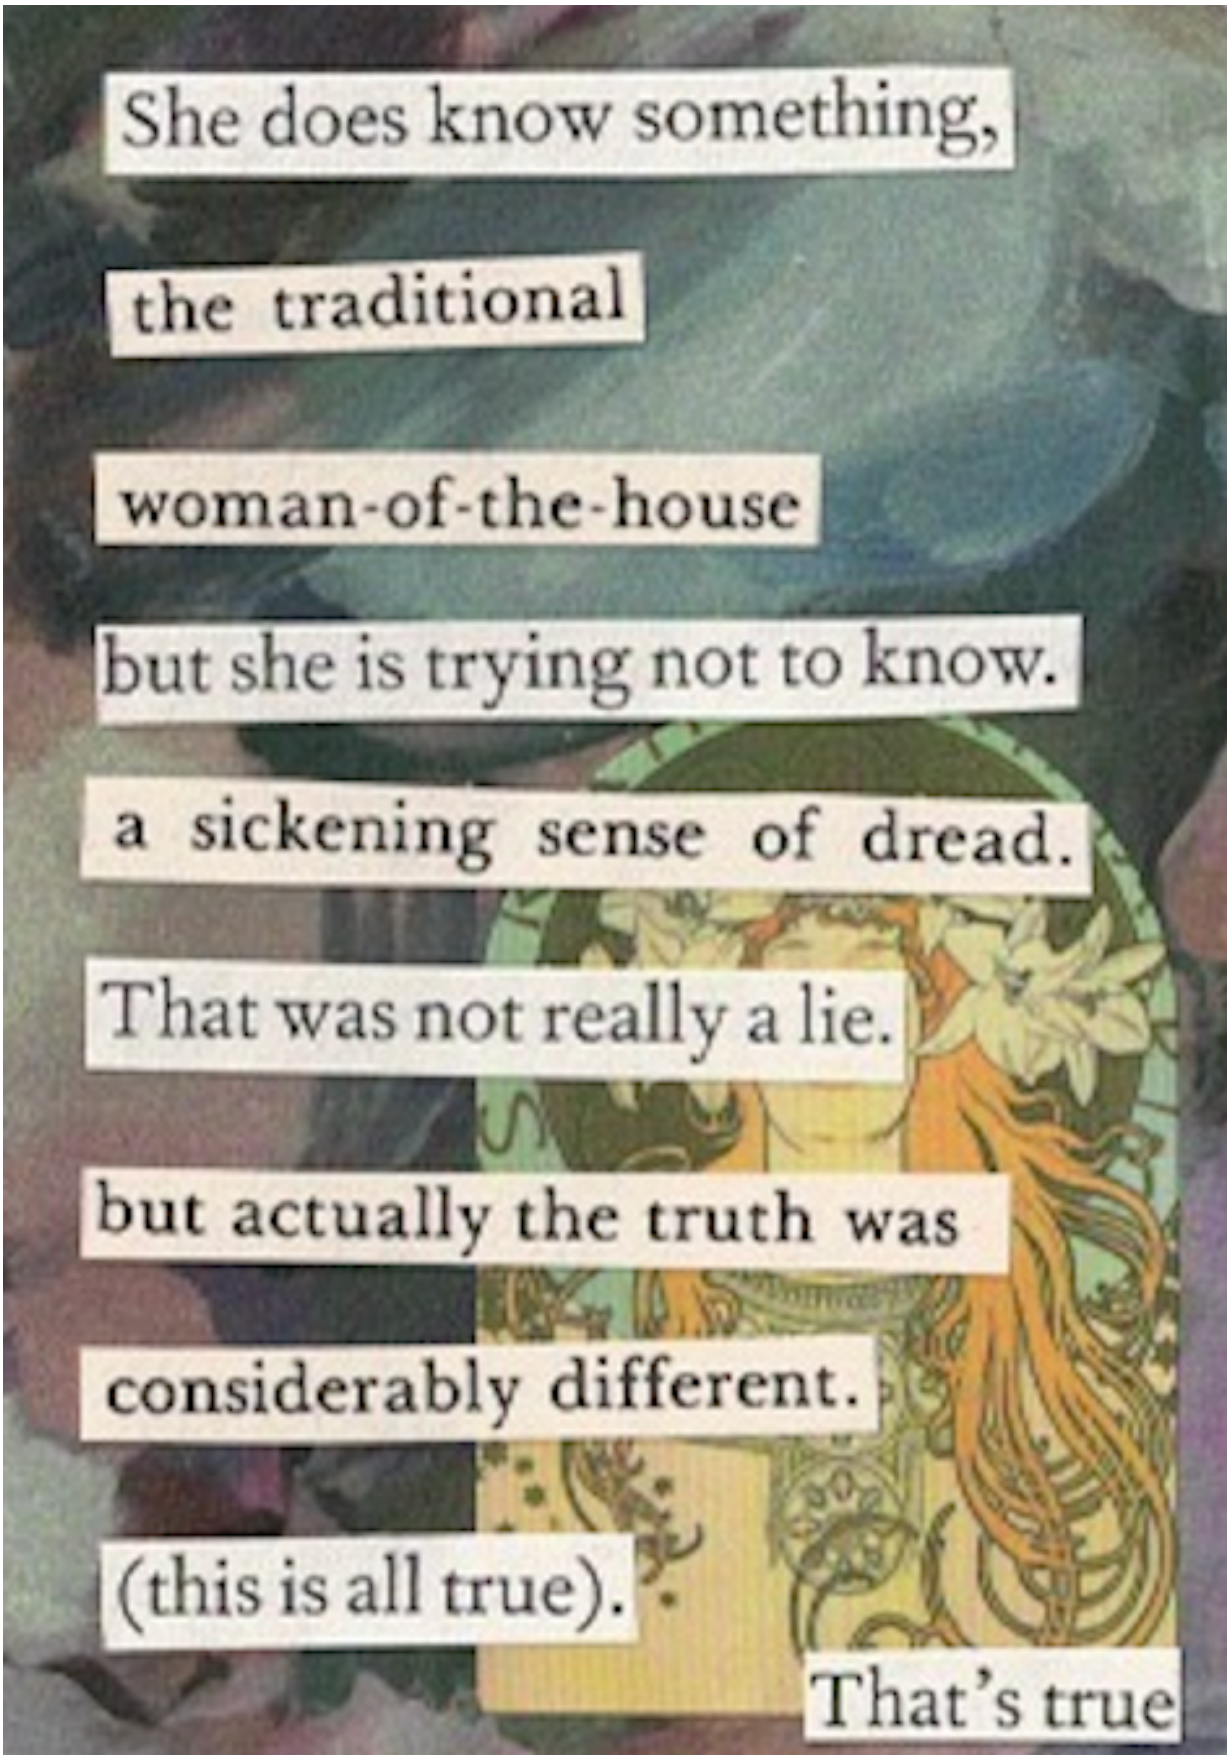
I had seen my wife
and her friends
struggling to save
themselves from domesticity



wincing
as they printed
"housewife"
in those blanks
asking for
occupation.



revealing the
"naked relentless
conscience of
a woman facing
herself,
with a duty
toward herself."



She does know something,
the traditional
woman-of-the-house
but she is trying not to know.
a sickening sense of dread.
That was not really a lie.
but actually the truth was
considerably different.
(this is all true).
That's true

she

seemed to hesitate,

as if she wanted to speak,

have a say

but then she

is a "Radical Left Lunatic"

looking for matches.

(she is not)

Barn's burnt down
Now
I can see the moon
